SUMMARY

Full-stack developer skilled in React, Node.js, and MongoDB, with **400+ LeetCode problems** solved and **10+ pull requests** merged across **6+ open-source repositories**. Experienced building and deploying full-stack applications with third-party API integrations, authentication, and caching layers.

EDUCATION

Indian Institute of Information Technology Design & Manufacturing Jabalpur

Jabalpur, India

Bachelor of Technology in Smart Manufacturing (CGPA: 7.1)

Aug 2023 – Aug 2027

- **Relevant Coursework:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

TECHNICAL SKILLS

Languages: C++, Java, JavaScript, TypeScript, Python, SQL, HTML/CSS

Frontend: React.js, React Native, Next.js, Redux Toolkit, Zustand, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Google OAuth

Database: MongoDB, MySQL, Redis

Tools/DevOps: Git, GitHub, Docker, GitHub Actions (CI/CD), Postman, Vercel, Render

EXPERIENCE

Full Stack Developer Intern

May 2026 – Aug 2026

Quickyearning Private Limited

Mumbai, India

- Rebuilt the landing page UI for quickyearning.com using React and JavaScript, restructuring page sections, navigation, and spacing/alignment for improved visual consistency.
- Engineered responsive layouts with CSS ensuring consistent rendering and usability across mobile, tablet, and desktop breakpoints.
- Collaborated within a small frontend team under a lead/mentor, iterating on UI and layout improvements through code review and feedback in a PR-based workflow.

Open Source Developer

May 2026 – Aug 2026

TAP Learning App – Code4GovTech (C4GT)

- Engineered a native Android learning-app scaffold (React Native) integrating TAP's Frappe-based LMS via REST APIs for content retrieval, submissions, and progress tracking.
- Built core student onboarding flows, achieving end-to-end LMS integration by the project's mid-point milestone.
- Collaborated with maintainers on issue triage and code review within an active open-source workflow, merging **8+ pull requests**.

Open Source Contributor

May 2026 – Aug 2026

GSoC Finder – GirlScript Summer of Code (GSSoC'26)

- Replaced simulated GitHub stats with live GitHub API integration, improving backend data accuracy.
- Engineered multi-field filtering and normalized search indexing to improve organization search accuracy and performance.
- Contributed **10+ pull requests** to the GSoC Finder platform under maintainer review.

PROJECTS

AI Resume Analyzer | *React, Node.js, MongoDB*

Source Code | **Live Demo**

- Engineered a full-stack resume evaluation platform parsing PDF/DOCX uploads and generating ATS-style scores.
- Built a scoring engine combining keyword matching, formatting checks, readability metrics, and skill-gap detection.
- Integrated OpenAI, Gemini, and Groq APIs with fallback logic for resume optimization and interview-question generation.
- Implemented JWT and Google OAuth authentication with Redis caching; containerized and deployed via Docker on Render/Vercel.

Yoom – Video Conferencing Platform | *Next.js, TypeScript*

Source Code | **Live Demo**

- Engineered a real-time video conferencing platform (Next.js, TypeScript) supporting screen sharing, meeting recording, and personal meeting rooms.
- Integrated Clerk Authentication and the GetStream SDK for real-time infrastructure; built a responsive UI with Tailwind CSS and Shadcn UI.

ACHIEVEMENTS

- Solved **400+** Data Structures & Algorithms problems on LeetCode across **635+ submissions** with a consistent coding streak.
- Advanced to the Final Round of Summer of Bitcoin 2026; selected as an open-source contributor for Social Summer of Code (SSoC).
- Secured **AIR 1** in the Psy-co-logic Competition at IIT Roorkee, representing IIITDM Jabalpur.
- Participated in **three hackathons** – Campus Crew – Gemini (Jun 2026, solo), Women Who Master (Jul 2026, solo), and Adobe University Hackathon (Aug 2026, Team TryCodex) – receiving participation certificates in each.

CERTIFICATIONS

- Linux Foundation (LFC102) | Deloitte Virtual Experience Program | GitHub Actions | Web Development with AI (Internshala)
